WICHTIG – BITTE SORGFÄLLTIG LESEN

Dieser Softwarebenutzungsvertrag ist ein rechtsgültiger Vertrag zwischen Ihnen („Anwender“) und der Fa. tuxgreen GmbH für Ihre TUXGUARD Appliances. Eine TUXGUARD Appliance besteht aus der Computerhardware, der TUXGUARD Software und möglicherweise dazugehörige Medien in gedruckter oder online abrufbarer Form. Folgender Vertrag gilt für die TUXGUARD Software sowie möglicherweise dazugehörige Medien in gedruckter oder online abrufbarer Form (im folgenden „Software“).

Indem Sie die Software installieren, kopieren oder anderweitig nutzen, erklären Sie Ihr Einverständnis mit den Rechten und Pflichten, die sich aus diesem Vertrag ergeben. Falls Sie sich nicht einverstanden erklären, dürfen Sie die Software weder installieren noch anderweitig nutzen. Sie können die TUXGUARD Appliance gegen Erstattung des Kaufpreises der Person zurückgeben, von der Sie es erhalten haben.

1. Vervielfältigungsrechte und Zugriffsschutz

- 1.1. Der Anwender darf das gelieferte Programm nur vervielfältigen durch Laden des Programms in den Arbeitsspeicher.
- 1.2. Darüber hinaus kann der Anwender eine Vervielfältigung zu Sicherungszwecken vornehmen. Es darf jedoch grundsätzlich nur eine einzige Sicherungskopie angefertigt und aufbewahrt werden. Diese Sicherungskopie ist als solche des überlassenen Programms zu kennzeichnen.
- 1.3. Ist aus Gründen der Datensicherheit oder der Sicherstellung einer schnellen Reaktivierung des Computersystems nach einem Totalausfall die turnusmäßige Sicherung des gesamten Datenbestands einschließlich der eingesetzten Computerprogramme unerlässlich, darf der Anwender Sicherungskopien in der zwingend erforderlichen Anzahl herstellen. Die betreffenden Datenträger sind entsprechend zu kennzeichnen. Die Sicherungskopien dürfen nur zu rein archivarischen Zwecken verwendet werden.
- 1.4. Der Anwender ist verpflichtet, den unbefugten Zugriff Dritter auf das Programm sowie die Dokumentation durch geeignete Vorkehrungen zu verhindern. Die gelieferten Originaldatenträger sowie die Sicherungskopien sind an einem gegen den unberechtigten Zugriff Dritter gesicherten Ort aufzubewahren. Die Mitarbeiter des Anwenders sind nachdrücklich auf die Einhaltung der vorliegenden Vertragsbedingungen sowie der Bestimmungen des Urheberrechtsgesetzes hinzuweisen.
- 1.5. Weitere Vervielfältigungen, zu denen auch die Ausgabe des Programmcodes auf einen Drucker sowie das Fotokopieren oder der Ausdruck des ganzen Handbuchs oder wesentlicher Teile davon zählen, darf der Anwender nicht anfertigen. Gegebenenfalls für Mitarbeiter benötigte zusätzliche Handbücher sind über den Lieferanten zu beziehen.

2. Mehrfachnutzungen und Netzwerkeinsatz

- 2.1. Der Anwender darf die Software ausschließlich auf der von TUXGUARD lizenzierten bzw. zur Verfügung gestellten Hardware einsetzen. Wechselt der Anwender mit vorheriger Zustimmung von tuxgreen GmbH die Hardware, muß er die Software von der bisher verwendeten Hardware löschen.
- 2.2. Ein zeitgleiches Einspeichern, Vorrätighalten oder Benutzen auf mehr als nur einer Hardware ist unzulässig. Möchte der Anwender die Software auf mehreren Hardwarekonfigurationen zeitgleich einsetzen, muß er eine entsprechende Anzahl von TUXGUARD Appliances erwerben.

3. Dekompilierung und Programmänderungen

- 3.1. Die Rückübersetzung des überlassenen Programmcodes in andere Codeformen (Dekompilierung) sowie sonstige Arten der Rückerschließung der verschiedenen Herstellungsstufen der Software (Reverse-Engineering) sind unzulässig. Die zum Zwecke der Herstellung der Interoperabilität eines unabhängig geschaffenen Computerprogramms erforderlichen Schnittstelleninformationen können gegen Erstattung eines geringen Kostenbeitrags bei uns angefordert werden. Die Anschrift entnehmen Sie bitte dem vorderen Deckblatt des Benutzerhandbuchs.
- 3.2. Die Entfernung eines Kopierschutzes oder ähnlicher Schutzmechanismen ist grundsätzlich unzulässig. Allein sofern durch diesen Schutzmechanismus die störungsfreie Programmnutzung beeinträchtigt oder verhindert wird und wir trotz entsprechender Aufforderung zur Störungsbeseitigung diese nicht innerhalb angemessener Zeit vorgenommen haben, dürfen Sie den Kopierschutz bzw. den Schutzmechanismus entfernen. Für die Beeinträchtigung oder Verhinderung störungsfreier Benutzbarkeit durch den Schutzmechanismus tragen Sie die Beweislast.
- 3.3. Andere als die in Absatz 2 geregelten Programmänderungen, insbesondere zum Zwecke der sonstigen Fehlerbeseitigung oder der Erweiterung des Funktionsumfangs sind unzulässig.
- 3.4. Urhebervermerke, Seriennummern sowie sonstige der Programmidentifikation dienende Merkmale darf der Anwender auf keinen Fall entfernen oder verändern. Gleiches gilt für eine Unterdrückung der Bildschirmanzeige entsprechender Merkmale.

4. Lizenzbedingungen Open-Source-Software

- 4.1. Ihre TUXGUARD arbeitet unter anderem auch mit sog. Open-Source-Software. Eine Auflistung der verwendeten Open-Source-Software ist in Anhang aufgeführt.
- 4.2. Sofern das Produkt Open-Source-Software verwendet, gelten in Abweichung von dieser Lizenzvereinbarung die für die jeweilige Open-Source-Software geltenden Lizenzbedingungen gem. Anlage. Der Anwender verpflichtet sich, die vollständigen Bestimmungen der jeweiligen Lizenzen (z.B. die der GNU-GPL) anzuerkennen und einzuhalten.
- 4.3. Der Quellcode der verwendeten Open-Source-Software kann bei tuxgreen GmbH angefordert werden. Preise dazu finden Sie auf der aktuellen Preisliste.

5. Weiterveräußerung und Weitervermietung

- 5.1. Der Anwender darf die TUXGUARD Appliance einschließlich des sonstigen Begleitmaterials auf Dauer an Dritte veräußern oder verschenken, vorausgesetzt der erwerbende Dritte erklärt sich mit der Weitergeltung der vorliegenden Vertragsbedingungen auch ihm gegenüber einverstanden. Im Falle der Weitergabe müssen Sie dem neuen Anwender sämtliche Programmkopien einschließlich gegebenenfalls vorhandener Sicherheitskopien übergeben oder die nicht übergebenen Kopien vernichten. Infolge der Weitergabe erlischt Ihr Recht zur Programmnutzung. Sie sind verpflichtet, der Informationspflicht des § 6 dieses Vertrages nachzukommen.
- 5.2. Sie dürfen die Software einschließlich der TUXGUARD Appliance Hardware und des sonstigen Begleitmaterials Dritten nicht zu Erwerbszwecken vermieten. Sie dürfen die Software verleihen (unentgeltlich überlassen), sofern der Dritte sich mit der Weitergeltung der vorliegenden Vertragsbedingungen auch ihm gegenüber einverstanden erklärt und Sie sämtliche Programmkopien einschließlich gegebenenfalls vorhandener Sicherheitskopien übergeben oder die nicht übergebenen Kopien vernichten. Für die Zeit der Überlassung der Software an den Dritten steht Ihnen kein Recht zur eigenen Programmnutzung zu. Sie dürfen die Software Dritten nicht überlassen, wenn der begründete Verdacht besteht, der Dritte werde die Vertragsbedingungen verletzen, insbesondere unerlaubte

Vervielfältigungen herstellen.

6. Informationspflichten

6.1. Sie sind im Falle der Weiterveräußerung/Leihe der Software verpflichtet, uns den Namen und die vollständige Anschrift des Käufers schriftlich mitzuteilen. Unsere Adresse entnehmen Sie bitte der vorderen Umschlagseite der Benutzungsanleitung.

7. Mängelansprüche

7.1. Ansprüche wegen Mängeln der Software müssen Sie gegenüber Ihrem Händler geltend machen.

8. Updates

8.1. Dieser Vertrag gilt auch für Updates und Ergänzungen der ursprünglich gelieferten Produkts, es sei denn mit dem Update oder der Ergänzung werden andere Lizenzbedingungen vereinbart.

9. Haftungsbeschränkung

9.1. Schadensersatzansprüche, etwa aus §§ 280, 241 Abs. 2 BGB (sog. positive Forderungsverletzung), aus § 311 BGB (Verschulden bei Vertragsschluss) und aus unerlaubter Handlung sind sowohl gegen die tuxgreen GmbH als auch gegen deren Erfüllungs- bzw. Verrichtungsgehilfen ausgeschlossen, sofern nicht vorsätzliches oder grob fahrlässiges Handeln vorliegt. Dies gilt auch für Schadensersatzansprüche wegen Nichterfüllung, allerdings nur insoweit, als der Ersatz von mittelbaren oder Mangelfolgeschäden sowie für entgangenen Gewinn verlangt wird.

9.2. Jede Haftung ist auf den einfachen Gegenwert des Auftragswertes beschränkt. In jedem Fall bleibt unberührt eine Haftung der tuxgreen GmbH nach dem Produkthaftungsgesetz.

10. Kollision mit anderen Geschäftsbedingungen

10.1. Sofern der Anwender ebenfalls Allgemeine Geschäftsbedingungen verwendet, kommt der Vertrag auch ohne ausdrückliche Einigung über den Einbezug Allgemeiner Geschäftsbedingungen zustande. Soweit die verschiedenen Allgemeinen Geschäftsbedingungen inhaltlich übereinstimmen, gelten diese als vereinbart. An die Stelle sich widersprechender Einzelregelungen treten die Regelungen des dispositiven Rechts. Gleiches gilt für den Fall, daß die Geschäftsbedingungen des Anwenders Regelungen enthalten, die im Rahmen dieser Geschäftsbedingungen nicht enthalten sind. Enthalten vorliegende Geschäftsbedingungen Regelungen, die in den Geschäftsbedingungen des Anwenders nicht enthalten sind, so gelten die vorliegenden Geschäftsbedingungen.

11. Gerichtsstand

11.1. Sofern der Anwender Kaufmann im Sinne des Handelsgesetzbuchs, juristische Person des öffentlichen Rechts oder öffentlich-rechtliches Sondervermögen ist, wird für sämtliche Streitigkeiten, die im Rahmen der Abwicklung dieses Vertragsverhältnisses entstehen, Saarbrücken, Deutschland, als Gerichtsstand vereinbart.

GNU General Public License, Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps:

- (1) copyright the software, and
- (2) offer you this license which gives you legal permission to copy,

distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

TUXGUARD® End User License Agreement (EULA)

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
 - a. You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
 - b. You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
 - c. If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
 - a. Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - b. Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - c. Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for non commercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing

TUXGUARD® End User License Agreement (EULA)

to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.
10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.> Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w`.

This is free software, and you are welcome to redistribute it under certain conditions; type `show c` for details.

TUXGUARD® End User License Agreement (EULA)

The hypothetical commands `show w` and `show c` should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w` and `show c`; they could even be mouse-clicks or menu items—whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989 Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages—typically libraries—of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These

TUXGUARD® End User License Agreement (EULA)

disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

TUXGUARD® End User License Agreement (EULA)

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions

"License" shall mean the terms and conditions for use, reproduction and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.
3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:
 - a. You must give any other recipients of the Work or Derivative Works a copy of this License; and
 - b. You must cause any modified files to carry prominent notices stating that You changed the files; and
 - c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
 - d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever

TUXGUARD® End User License Agreement (EULA)

such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. **Submission of Contributions.** Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.
6. **Trademarks.** This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.
7. **Disclaimer of Warranty.** Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.
8. **Limitation of Liability.** In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
9. **Accepting Warranty or Additional Liability.** While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

ISS limits use of Software based upon the number of nodes, users and/or the number and type of devices upon which it may be installed, used, gather data from, or report on, depending upon the specific Software licensed. A device includes any network addressable device connected to Licensee's network, including remotely, including but not limited to personal computers, workstations, servers, routers, hubs and printers. A device may also include ISS hardware delivered with pre-installed Software and the license associated with such shall be a non-exclusive, nontransferable, limited license to use such pre-installed Software only in conjunction with the ISS hardware with which it is originally supplied and only during the usable life of such hardware. Except as provided in the immediately preceding sentence, Licensee may reproduce, install and use the Software on multiple devices, provided that the total number and type are authorized by ISS. Licensee acknowledges that the license key provided by ISS may allow Licensee to reproduce, install and use the Software on devices that could exceed the number of devices licensed hereunder. Licensee shall implement appropriate safeguards and controls to prevent loss or disclosure of the license key and unauthorized or unlicensed use of the Software. Licensee may make a reasonable number of backup copies of the Software and the associated license key solely for archival and disaster recovery purposes.

In connection with certain Software products, ISS licenses security content on a subscription basis for a Term and provides Licensee with a license key for each such subscription. Content subscriptions are licensed pursuant to this License based upon the number of protected nodes or number of users. Security content is regularly updated and includes, but is not limited to, Internet content (URLs) and spam signatures that ISS classifies, security algorithms, checks, decodes, and ISS' related analysis of such information, all of which ISS regards as its confidential information and intellectual property. Security content may only be used in conjunction with the applicable Software in accordance with this License. The use or re-use of such content for commercial purposes is prohibited.

Licensee's access to the security content is through an Internet update using the Software. In addition, unknown URLs may be automatically forwarded to ISS through the Software, analyzed, classified, entered in to ISS' URL database and provided to Licensee as

TUXGUARD® End User License Agreement (EULA)

security content updates at regular intervals. ISS' URL database is located at an ISS facility or as a mirrored version on Licensee's premises. Any access by Licensee to the URL database that is not in conformance with this License is prohibited. Upon expiration of the security content subscription Term, unless Licensee renews such content subscription, Licensee shall implement appropriate system configuration modifications to terminate its use of the content subscription. Upon expiration of the license Term, Licensee shall cease using the Software and certify return or destruction of it upon request.

2. Migration Utilities – For Software ISS markets or sells as a Migration Utility, the following shall apply. Provided Licensee holds a valid license to the ISS Software to which the Migration Utility relates (the "Original Software"), ISS grants to Licensee as the only end user a nonexclusive and nontransferable, limited license to the Migration Utility and the related documentation ("Migration Utility") for use only in connection with Licensee's migration of the Original Software to the replacement software, as recommended by ISS in the related documentation. The Term of this License is for as long as Licensee holds a valid license to the applicable Original Software. Licensee may reproduce, install and use the Migration Utility on multiple devices in connection with its migration from the Original Software to the replacement software. Licensee shall implement appropriate safeguards and controls to prevent unlicensed use of the Migration Utility. Licensee may make a reasonable number of backup copies of the Migration Utility solely for archival and disaster recovery purposes.

3. Third-party Products - Use of third party product(s) supplied hereunder, if any, will be subject solely to the manufacturer's terms and conditions that will be provided to Licensee upon delivery. ISS will pass any third party product warranties through to Licensee to the extent authorized. If ISS supplies Licensee with Crystal Decisions Runtime Software, then the following additional terms apply:

Licensee agrees not to alter, disassemble, decompile, translate, adapt or reverse-engineer the Runtime Software or the report file (.RPT) format, or to use, distribute or integrate the Runtime Software with any general-purpose report writing, data analysis or report delivery product or any other product that performs the same of similar functions as Crystal Decisions' product offerings;

Licensee agrees not to use the Software to create for distribution a product that converts the report file (.RPT) format to an alternative report file format used by any general-purpose report writing, data analysis or report delivery product that is not the property of Crystal Decisions;

Licensee agrees not to use the Runtime Software on a rental or timesharing basis or to operate a service bureau facility for the benefit of third-parties unless Licensee first acquires an Application Service Provider License from Crystal Decisions;

Licensee may not use the Software or Runtime Software by itself or as part of a system to regularly deliver, distribute or share Reports outside of the Runtime Software environment: (a) to more than fifty (50) end users directly, or (b) to a location that is accessible to more than 50 end users without obtaining an additional license from Crystal Decisions;

CRYSTAL DECISIONS AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES, EXPRESS, OR IMPLIED, INCLUDING WITHOUT LIMITATION THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. CRYSTAL DECISIONS AND ITS SUPPLIERS SHALL HAVE NO LIABILITY WHATSOEVER UNDER THIS AGREEMENT OR IN CONNECTION WITH THE SOFTWARE.

In this section 3 "Software" means the Crystal Reports software and associated documentation supplied by ISS and any updates, additional modules, or additional software provided by Crystal Decisions in connection therewith; it includes Crystal Decisions' Design Tools, Report Application Server and Runtime Software, but does not include any promotional software of other software products provided in the same package, which shall be governed by the online software license agreements included with such promotional software or software product.

4. Beta License – If ISS is providing Licensee with the Software, security content and related documentation as a part of an alpha or beta test, the following terms of this Section 4 additionally apply and supercede any conflicting provisions herein or any other license agreement accompanying, contained or embedded in the subject Beta Software or any associated documentation. ISS grants to Licensee a nonexclusive, nontransferable, limited license to use the ISS alpha/prototype software program, security content, if any, and any related documentation furnished by ISS ("Beta Software") for Licensee's evaluation and comment (the "Beta License") during the Test Period. ISS' standard test cycle, which may be extended at ISS' discretion, extends for sixty (60) days, commencing on the date of delivery of the Beta Software (the "Test Period"). Upon expiration of the Test Period or termination of the License, Licensee shall, within thirty (30) days, return to ISS or destroy all copies of the Beta Software, and shall furnish ISS written confirmation of such return or destruction upon request.

Licensee will provide ISS information reasonably requested by ISS regarding Licensee's experiences with the installation and operation of the Beta Software. Licensee agrees that ISS shall have the right to use, in any manner and for any purpose, any information gained as a result of Licensee's use and evaluation of the Beta Software. Such information shall include but not be limited to changes, modifications and corrections to the Beta Software. Licensee grants to ISS a perpetual, royalty-free, non-exclusive, transferable, sublicensable right and license to use, copy, make derivative works of and distribute any report, test result, suggestion or other item resulting from Licensee's evaluation of its installation and operation of the Beta Software.

If Licensee is ever held or deemed to be the owner of any copyright rights in the Beta Software or any changes, modifications or corrections to the Beta Software, then Licensee hereby irrevocably assigns to ISS all such rights, title and interest and agrees to execute all documents necessary to implement and confirm the letter and intent of this Section. Licensee acknowledges and agrees that the Beta Software (including its existence, nature and specific features) constitute Confidential Information as defined in Section 18. Licensee further agrees to treat as Confidential Information all feedback, reports, test results, suggestions, and other items resulting from Licensee's evaluation and testing of the Beta Software as contemplated in this Agreement. With regard to the Beta Software, ISS has no obligation to provide support, maintenance, upgrades, modifications, or new releases. However, ISS agrees to use its reasonable efforts to correct errors in the Beta Software and related documentation within a reasonable time, and will provide Licensee with any corrections it makes available to other evaluation participants. The documentation relating to the Beta Software may be in draft form and will, in many cases, be incomplete. Owing to the experimental nature of the Beta Software, Licensee is advised not to rely exclusively on the Beta Software for any reason. LICENSEE AGREES THAT THE BETA SOFTWARE AND RELATED DOCUMENTATION ARE BEING DELIVERED "AS IS" FOR TEST AND EVALUATION PURPOSES ONLY WITHOUT WARRANTIES OF ANY KIND, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. LICENSEE ACKNOWLEDGES AND AGREES THAT THE BETA SOFTWARE MAY CONTAIN DEFECTS, PRODUCE ERRONEOUS AND UNINTENDED RESULTS AND MAY AFFECT DATA NETWORK SERVICES AND OTHER MATERIALS OF LICENSEE. LICENSEE'S USE OF THE BETA SOFTWARE IS AT THE SOLE RISK OF LICENSEE. IN NO EVENT WILL ISS BE LIABLE TO LICENSEE OR ANY OTHER PERSON FOR DAMAGES, DIRECT OR INDIRECT, OF ANY NATURE, OR EXPENSES INCURRED BY LICENSEE. LICENSEE'S SOLE AND EXCLUSIVE REMEDY SHALL BE TO TERMINATE THE BETA SOFTWARE LICENSE BY WRITTEN NOTICE TO ISS.

5. Evaluation License - If ISS is providing Licensee with the Software, security content and related documentation on an evaluation trial basis at no cost, such license Term is 30 days from installation, unless a longer period is agreed to in writing by ISS. ISS recommends using Software and security content for evaluation in a non-production, test environment. The following terms of this Section 5 additionally apply and supercede any conflicting provisions herein. Licensee agrees to remove or disable the Software and security content from the authorized platform and return the Software, security content and documentation to ISS upon expiration of the evaluation Term unless otherwise agreed by the parties in writing. ISS has no obligation to provide support, maintenance, upgrades, modifications, or new releases to the Software or security content under evaluation. LICENSEE AGREES THAT THE EVALUATION SOFTWARE, SECURITY CONTENT AND RELATED DOCUMENTATION ARE BEING DELIVERED "AS IS" FOR TEST AND EVALUATION PURPOSES ONLY WITHOUT

TUXGUARD® End User License Agreement (EULA)

WARRANTIES OF ANY KIND, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF NONINFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ISS BE LIABLE TO LICENSEE OR ANY OTHER PERSON FOR DAMAGES, DIRECT OR INDIRECT, OF ANY NATURE, OR EXPENSES INCURRED BY LICENSEE. LICENSEE'S SOLE AND EXCLUSIVE REMEDY SHALL BE TO TERMINATE THE EVALUATION LICENSE BY WRITTEN NOTICE TO ISS.

6. Covenants - ISS reserves all intellectual property rights in the Software, security content and Beta Software. Licensee agrees: (i) the Software, security content or Beta Software is owned by ISS and/or its licensors, is a valuable trade secret of ISS, and is protected by copyright laws and international treaty provisions; (ii) to take all reasonable precautions to protect the Software, security content or Beta Software from unauthorized access, disclosure, copying or use; (iii) not to modify, adapt, translate, reverse engineer, decompile, disassemble, or otherwise attempt to discover the source code of the Software, security content or Beta Software; (iv) not to use ISS trademarks; (v) to reproduce all of ISS' and its licensors' copyright notices on any copies of the Software, security content or Beta Software; and (vi) not to transfer, lease, assign, sublicense, or distribute the Software, security content or Beta Software or make it available for time-sharing, service bureau, managed services offering, or on-line use.

7. Support and Maintenance – Depending upon what maintenance programs Licensee has purchased, ISS will provide maintenance, during the period for which Licensee has paid the applicable maintenance fees, in accordance with its prevailing Maintenance and Support Policy that is available at http://documents.iss.net/maintenance_policy.pdf. Any supplemental Software code or related materials that ISS provides to Licensee as part of any support and maintenance service are to be considered part of the Software and are subject to the terms and conditions of this License, unless otherwise specified.

8. Limited Warranty - The commencement date of this limited warranty is the date on which ISS furnishes to Licensee the license key for the Software. For a period of ninety (90) days after the commencement date or for the Term (whichever is less), ISS warrants that the Software or security content will conform to material operational specifications described in its then current documentation. However, this limited warranty shall not apply unless (i) the Software or security content is installed, implemented, and operated in accordance with all written instructions and documentation supplied by ISS, (ii) Licensee notifies ISS in writing of any nonconformity within the warranty period, and (iii) Licensee has promptly and properly installed all corrections, new versions, and updates made available by ISS to Licensee. Furthermore, this limited warranty shall not apply to nonconformities arising from any of the following: (i) misuse of the Software or security content, (ii) modification of the Software or security content, (iii) failure by Licensee to utilize compatible computer and networking hardware and software, or (iv) interaction with software or firmware not provided by ISS. If Licensee timely notifies ISS in writing of any such nonconformity, then ISS shall repair or replace the Software or security content or, if ISS determines that repair or replacement is impractical, ISS may terminate the applicable licenses and refund the applicable license fees, as the sole and exclusive remedies of Licensee for such nonconformity. THIS WARRANTY GIVES LICENSEE SPECIFIC LEGAL RIGHTS, AND LICENSEE MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION. ISS DOES NOT WARRANT THAT THE SOFTWARE OR THE SECURITY CONTENT WILL MEET LICENSEE'S REQUIREMENTS, THAT THE OPERATION OF THE SOFTWARE OR SECURITY CONTENT WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT ALL SOFTWARE OR SECURITY CONTENT ERRORS WILL BE CORRECTED. LICENSEE UNDERSTANDS AND AGREES THAT THE SOFTWARE AND THE SECURITY CONTENT ARE NO GUARANTEE AGAINST UNSOLICITED E-MAILS, UNDESIRABLE INTERNET CONTENT, INTRUSIONS, VIRUSES, TROJAN HORSES, WORMS, TIME BOMBS, CANCELBOOTS OR OTHER SIMILAR HARMFUL OR DELETERIOUS PROGRAMMING ROUTINES AFFECTING LICENSEE'S NETWORK, OR THAT ALL SECURITY THREATS AND VULNERABILITIES, UNSOLICITED E-MAILS OR UNDESIRABLE INTERNET CONTENT WILL BE DETECTED OR THAT THE PERFORMANCE OF THE SOFTWARE AND SECURITY CONTENT WILL RENDER LICENSEE'S SYSTEMS INVULNERABLE TO SECURITY BREACHES. THE REMEDIES SET OUT IN THIS SECTION 8 ARE THE SOLE AND EXCLUSIVE REMEDIES FOR BREACH OF THIS LIMITED WARRANTY.

9. Warranty Disclaimer - EXCEPT FOR THE LIMITED WARRANTY PROVIDED ABOVE, THE SOFTWARE AND SECURITY CONTENT ARE EACH PROVIDED "AS IS" AND ISS HEREBY DISCLAIMS ALL WARRANTIES, BOTH EXPRESS AND IMPLIED, INCLUDING IMPLIED WARRANTIES RESPECTING MERCHANTABILITY, TITLE, NONINFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE. LICENSEE EXPRESSLY ACKNOWLEDGES THAT NO REPRESENTATIONS OTHER THAN THOSE CONTAINED IN THIS LICENSE HAVE BEEN MADE REGARDING THE GOODS OR SERVICES TO BE PROVIDED HEREUNDER, AND THAT LICENSEE HAS NOT RELIED ON ANY REPRESENTATION NOT EXPRESSLY SET OUT IN THIS LICENSE.

10. Proprietary Rights - ISS represents and warrants that ISS has the authority to license the rights to the Software and security content that are granted herein. ISS shall defend and indemnify Licensee from any final award of costs and damages against Licensee for any actions based on infringement of any U.S. copyright, trade secret, or patent as a result of the use or distribution of a current, unmodified version of the Software and security content, but only if ISS is promptly notified in writing of any such suit or claim, and only if Licensee permits ISS to defend, compromise, or settle same, and only if Licensee provides all available information and reasonable assistance. The foregoing is the exclusive remedy of Licensee and states the entire liability of ISS with respect to claims of infringement or misappropriation relating to the Software and security content.

11. Limitation of Liability - ISS' ENTIRE LIABILITY FOR MONETARY DAMAGES ARISING OUT OF THIS LICENSE SHALL BE LIMITED TO THE AMOUNT OF THE LICENSE FEES ACTUALLY PAID BY LICENSEE UNDER THIS LICENSE, PRORATED OVER A THREE-YEAR TERM FROM THE DATE LICENSEE RECEIVED THE SOFTWARE OR SECURITY CONTENT, AS APPLICABLE, IN NO EVENT SHALL ISS BE LIABLE TO LICENSEE UNDER ANY THEORY INCLUDING CONTRACT AND TORT (INCLUDING NEGLIGENCE AND STRICT PRODUCTS LIABILITY) FOR ANY SPECIAL, PUNITIVE, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, DAMAGES FOR LOST PROFITS, LOSS OF DATA, LOSS OF USE, OR COMPUTER HARDWARE MALFUNCTION, EVEN IF ISS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

12. Termination - Licensee may terminate this License at any time by notifying ISS in writing. All rights granted under this License will terminate immediately, without prior written notice from ISS, at the end of the term of the License, if not perpetual. If Licensee fails to comply with any provisions of this License, ISS may immediately terminate this License if such default has not been cured within ten (10) days following written notice of default to Licensee. Upon termination or expiration of a license for Software, Licensee shall cease all use of such Software, including Software pre-installed on ISS hardware, and destroy all copies of the Software and associated documentation. Termination of this License shall not relieve Licensee of its obligation to pay all fees incurred prior to such termination and shall not limit either party from pursuing any other remedies available to it.

13. General Provisions - This License, together with the identification of the Software and/or security content, pricing and payment terms stated in the applicable ISS quotation and Licensee purchase order (if applicable) as accepted by ISS, constitute the entire agreement between the parties respecting its subject matter. Standard and other additional terms or conditions contained in any purchase order or similar document are hereby expressly rejected and shall have no force or effect. ISS Software and security content are generally delivered to Customer by supplying Customer with license key data. If Customer has not already downloaded the Software, security content and documentation, then it is available for download at <http://www.iss.net/download/>. All ISS hardware with pre-installed Software and any other products not delivered by download are delivered f.o.b. origin. This License will be governed by the substantive laws of the State of Georgia, USA, excluding the application of its conflicts of law rules. This License will not be governed by the United Nations Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded. If any part of this License is found void or unenforceable, it will not affect the validity of the balance of the License, which shall remain valid and enforceable according to its terms. This License may only be modified in writing signed by an authorized officer of ISS.

14. Notice to United States Government End Users - Licensee acknowledges that any Software and security content furnished under this License is commercial computer software and any documentation is commercial technical data developed at private expense and is

TUXGUARD® End User License Agreement (EULA)

provided with RESTRICTED RIGHTS. Any use, modification, reproduction, display, release, duplication or disclosure of this commercial computer software by the United States Government or its agencies is subject to the terms, conditions and restrictions of this License in accordance with the United States Federal Acquisition Regulations at 48 C.F.R. Section 12.212 and DFAR Subsection 227.7202-3 and Clause 252.227-7015 or applicable subsequent regulations. Contractor/manufacturer is Internet Security Systems, Inc., 6303 Barfield Road, Atlanta, GA 30328, USA.

15. Export and Import Controls; Use Restrictions - Licensee will not transfer, export, or reexport the Software, security content, any related technology, or any direct product of either except in full compliance with the export controls administered by the United States and other countries and any applicable import and use restrictions. Licensee agrees that it will not export or reexport such items to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Commerce Department's Denied Persons List or Entity List or such additional lists as may be issued by the U.S. Government from time to time, or to any country to which the United States has embargoed the export of goods (currently Cuba, Iran, Iraq, Libya, North Korea, Sudan and Syria) or for use with chemical or biological weapons, sensitive nuclear end-uses, or missiles. Licensee represents and warrants that it is not located in, under control of, or a national or resident of any such country or on any such list. Many ISS software products include encryption and export outside of the United States or Canada is strictly controlled by U.S. laws and regulations. ISS makes its current export classification information available at <http://www.iss.net/export>. Please contact ISS' Sourcing and Fulfillment for export questions relating to the Software or security content (fulfillment@iss.net). Licensee understands that the foregoing obligations are U.S. legal requirements and agrees that they shall survive any term or termination of this License.

16. Authority - Because the Software is designed to test or monitor the security of computer network systems and may disclose or create problems in the operation of the systems tested, Licensee and the persons acting for Licensee represent and warrant that: (a) they are fully authorized by the Licensee and the owners of the computer network for which the Software is licensed to enter into this License and to obtain and operate the Software in order to test and monitor that computer network; (b) the Licensee and the owners of that computer network understand and accept the risks involved; and (c) the Licensee shall procure and use the Software in accordance with all applicable laws, regulations and rules.

17. Disclaimers - Licensee acknowledges that some of the Software and security content is designed to test the security of computer networks and may disclose or create problems in the operation of the systems tested. Licensee further acknowledges that neither the Software nor security content is fault tolerant or designed or intended for use in hazardous environments requiring fail-safe operation, including, but not limited to, aircraft navigation, air traffic control systems, weapon systems, life-support systems, nuclear facilities, or any other applications in which the failure of the Software and security content could lead to death or personal injury, or severe physical or property damage. ISS disclaims any implied warranty of fitness for High Risk Use. Licensee accepts the risk associated with the foregoing disclaimers and hereby waives all rights, remedies, and causes of action against ISS and releases ISS from all liabilities arising therefrom.

18. Confidentiality - "Confidential Information" means all information proprietary to a party or its suppliers that is marked as confidential. Each party acknowledges that during the term of this Agreement, it will be exposed to Confidential Information of the other party. The obligations of the party ("Receiving Party") which receives Confidential Information of the other party ("Disclosing Party") with respect to any particular portion of the Disclosing Party's Confidential Information shall not attach or shall terminate when any of the following occurs: (i) it was in the public domain or generally available to the public at the time of disclosure to the Receiving Party, (ii) it entered the public domain or became generally available to the public through no fault of the Receiving Party subsequent to the time of disclosure to the Receiving Party, (iii) it was or is furnished to the Receiving Party by a third party having the right to furnish it with no obligation of confidentiality to the Disclosing Party, or (iv) it was independently developed by the Receiving Party by individuals not having access to the Confidential Information of the Disclosing Party. Each party acknowledges that the use or disclosure of Confidential Information of the Disclosing Party in violation of this License could severely and irreparably damage the economic interests of the Disclosing Party. The Receiving Party agrees not to disclose or use any Confidential Information of the Disclosing Party in violation of this License and to use Confidential Information of the Disclosing Party solely for the purposes of this License. Upon demand by the Disclosing Party and, in any event, upon expiration or termination of this License, the Receiving Party shall return to the Disclosing Party all copies of the Disclosing Party's Confidential Information in the Receiving Party's possession or control and destroy all derivatives and other vestiges of the Disclosing Party's Confidential Information obtained or created by the Disclosing Party. All Confidential Information of the Disclosing Party shall remain the exclusive property of the Disclosing Party.

19. Compliance - From time to time, ISS may request Licensee to provide a certification that the Software and security content is being used in accordance with the terms of this License. If so requested, Licensee shall verify its compliance and deliver its certification within forty-five (45) days of the request. The certification shall state Licensee's compliance or non-compliance, including the extent of any non-compliance. ISS may also, at any time, upon thirty (30) days prior written notice, at its own expense appoint a nationally recognized software use auditor, to whom Licensee has no reasonable objection, to audit and examine use and records at Licensee offices during normal business hours, solely for the purpose of confirming that Licensee's use of the Software and security content is in compliance with the terms of this License. ISS will use commercially reasonable efforts to have such audit conducted in a manner such that it will not unreasonably interfere with the normal business operations of Licensee. If such audit should reveal that use of the Software or security content has been expanded beyond the scope of use and/or the number of Authorized Devices or Licensee certifies such non-compliance, ISS shall have the right to charge Licensee the applicable current list prices required to bring Licensee in compliance with its obligations hereunder with respect to its current use of the Software and security content. In addition to the foregoing, ISS may pursue any other rights and remedies it may have at law, in equity or under this License.

20. Data Protection - The data needed to process this transaction will be stored by ISS and may be forwarded to companies affiliated with ISS and possibly to Licensee's vendor within the framework of processing Licensee's order. All personal data will be treated confidentially.

All references to "Software" herein shall be deemed to include the software activation key ("Key Identification File") with which you will be provided by Kaspersky Lab as part of the Software.

1. Licence Grant. Subject to the payment of the applicable licence fees, and subject to the terms and conditions of this Agreement, Kaspersky Lab hereby grants to you a non-exclusive, non-transferable right to use one copy of the specified version of the Software and the accompanying documentation (the "Documentation") for the term of this Agreement solely for your own internal business purposes. You may install one copy of the Software on one computer, workstation, personal digital assistant, or other electronic device for which the Software was designed (each, a "Client Device"). If the Software is licensed as a suite or bundle with more than one specified Software produce, this licence applies to all such specified Software products, subject to any restrictions or usage terms specified on the applicable price list or product packaging that apply to any of such Software products individually.
 - 1.1. Use. The Software is licensed as a single product; it may not be used on more than one Client Device or by more than one user at a time, except as set forth in this Section.
 - 1.1.1. The Software is "in use" on a Client Device when it is loaded into the temporary memory (i.e., random-access memory or RAM) or installed into the permanent memory (e.g., hard disk, CD-ROM, or other storage device) of that Client Device. This licence authorizes you to make only as many back-up copies of the Software as are necessary for its lawful use and solely for back-up purposes, provided that all such copies contain all of the Software's proprietary notices. You will maintain records of the number and location of all copies of the Software and Documentation and will take all reasonable precautions to protect the Software from unauthorised copying or use.
 - 1.1.2. If you sell the Client Device on which the Software is installed, you will ensure that all copies of the Software have been previously deleted.
 - 1.1.3. You shall not decompile, reverse engineer, disassemble or otherwise reduce any party of this Software to human readable form nor permit any third party to do so. The interface information necessary to achieve interoperability of the Software with independently created computer programs will be provided by Kaspersky Lab on request on payment of its reasonable costs and expenses for procuring and supplying such information. In the event Kaspersky Lab notifies you that it does not intend to make such information available for any reason, including (without limitation) costs, you shall be permitted to take such steps to achieve interoperability provided that you may only reverse engineer or decompile to the extent permitted by law.
 - 1.1.4. You shall not, nor permit any third party to copy (other than as expressly permitted herein), make error corrections to or otherwise modify, adapt or translate the Software nor create derivative works of the Software.

TUXGUARD® End User License Agreement (EULA)

- 1.1.5. You shall not rent, lease or lend the Software to any other person, nor transfer or sub-licence your licence rights to any other person.
- 1.1.6. You shall not use this Software in automatic, semi-automatic or manual tools designed to create virus signatures, virus detection routines, any other data or code for detecting malicious code or data.
- 1.2. Server-Mode Use. You may use the Software on a Client Device or on or as a server ("Server") within a multi-user or networked environment ("Server-Mode") only if such use is permitted in the applicable price list or product packaging for the Software. A separate licence is required for each Client Device or "seat" that may connect to the Server at any time, regardless of whether such licensed Client Devices or seats are concurrently connected to or actually accessing or using the Software. Use of software or hardware that reduces the number of Client Devices or seats directly accessing or utilizing the Software (e.g., "multiplexing" or "pooling" software or hardware) does not reduce the number of licences required (i.e., the required number of licences would equal the number of distinct inputs to the multiplexing or pooling software or hardware "front end"). If the number of Client Devices or seats that can connect to the Software can exceed the number of licences you have obtained, then you must have a reasonable mechanism in place to ensure that your use of the Software does not exceed the use limits specified for the licence you have obtained. This licence authorizes you to make or download such copies of the Documentation for each Client Device or seat that is licensed as are necessary for its lawful use, provided that each such copy contains all of the Documentation proprietary notices.
- 1.3. Volume Licences. If the Software is licensed with volume licence terms specified in the applicable product invoicing or packaging for the Software, you may make, use or install as many additional copies of the Software on the number of Client Devices as the volume licence terms specify. You must have reasonable mechanisms in place to ensure that the number of Client Devices on which the Software has been installed does not exceed the number of licences you have obtained. This licence authorizes you to make or download one copy of the Documentation for each additional copy authorized by the volume licence, provided that each such copy contains all of the Document's proprietary notices.
2. Term. This Agreement is effective for the period specified in the Key File (the unique file which is required to fully enable the Software, please see Help/ about Software or Software about, for Unix/Linux version of the Software see the notification about expiration date of the Key File) unless and until earlier terminated as set forth herein. This Agreement will terminate automatically if you fail to comply with any of the conditions, limitations or other requirements described herein. Upon any termination or expiration of this Agreement, you must immediately destroy all copies of the Software and the Documentation. You may terminate this Agreement at any point by destroying all copies of the Software and the Documentation.
3. Support.
 - (i) Kaspersky Lab will provide you with the support services ("Support Services") as defined below for a period of one year on:
 - (a) payment of its then current support charge; and
 - (b) successful completion of the Support Services Subscription Form as provided to you with this Agreement or as available on the Kaspersky Lab website, which will require you to produce the Key Identification File which will have been provided to you by Kaspersky Lab with this Agreement. It shall be in the absolute discretion of Kaspersky Lab whether or not you have satisfied this condition for the provision of Support Services.
 - (ii) Support Services will terminate unless renewed annually by payment of the then current annual support charge and by successful completion of the Support Services Subscription Form again.
 - (iii) "Support Services" means:
 - (a) Daily updates of antivirus databases;
 - (b) Free software updates, including version upgrades;
 - (c) Extended technical support via E-mail and hot phone-line provided by Vendor and/or Reseller;
 - (d) Virus detection and curing updates in 24-hours period.
4. Ownership Rights. The Software is protected by copyright laws. Kaspersky Lab and its suppliers own and retain all right, title and interest in and to the Software, including all copyrights, patents, trademarks and other intellectual property rights therein. Your possession, installation, or use of the Software does not transfer to you any title to the intellectual property in the Software, and you will not acquire any rights to the Software except as expressly set forth in this Agreement.
5. Confidentiality. You agree that the Software and the Documentation, including the specific design and structure of individual programs and the Key Identification File constitute confidential proprietary information of Kaspersky Lab. You shall not disclose, provide or otherwise make available such confidential information in any form to any third party without the prior written consent of Kaspersky Lab. You shall implement reasonable security measures to protect such confidential information, but without limitation to the foregoing shall use best endeavours to maintain the security of the Key Identification File.

 - (v) The warranty in (i) shall not apply if you (a) make or cause to be made any modifications to this Software without the consent of Kaspersky Lab, (b) use the Software in a manner for which it was not intended, or (c) use the Software other than as permitted under this Agreement.
 - (vi) The warranties and conditions stated in this Agreement are in lieu of all other conditions, warranties or other terms concerning the supply or purported supply of, failure to supply or delay in supplying the Software or the Documentation which might but for this paragraph (vi) have effect between the Kaspersky Lab and your or would

Preamble

The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications.

Definitions:

"Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification.

"Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder.

"Copyright Holder" is whoever is named in the copyright or copyrights for the package.

"You" is you, if you're thinking about copying or distributing this Package.

"Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.)

"Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it.

1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers.
2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.
3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following:
 - a) place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as ftp.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.
 - b) use the modified Package only within your corporation or organization.
 - c) rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.
 - d) make other distribution arrangements with the Copyright Holder.
4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:
 - a) distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.
 - b) accompany the distribution with the machine-readable source of the Package with your modifications.
 - c) accompany any non-standard executables with their corresponding Standard Version executables, giving the non-standard executables non-standard names, and clearly documenting the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.
 - d) make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own.
6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whomever generated them, and may be sold commercially, and may be aggregated with this Package.
7. C or perl subroutines supplied by you and linked into this Package shall not be considered part of this Package.
8. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission.
9. THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The current version of the XFree86 Project licence is 1.1 and applies to all versions (tags, snapshots, releases) of the software subsequent to XFree86 version 4.3.99.903 (XFree86 4.4.0 RC3). Our previous version is 1.0, applies to 4.3.99.902 (XFree86 4.4.0 RC) and all XFree86 versions (tags, snapshots, releases) of the software preceding the 1.1 revision.

XFree86 as a whole contains software covered by a range of different licenses and is not covered by a single license. The 1.1 licence revision itself applies only to those portions of the code that are copyrighted by solely The XFree86 Project, Inc. Even so, some portions of this code continue to carry the 1.0 license. Refer to each source file for specific licence details.

While we admit that all these licenses are unwieldy, and such a concept of 'several licenses' in one piece of software is undoubtedly unfamiliar to most in the free and open-source community, we hope that the following FAQ explains the rationale for this. If not, tell us how to improve this FAQ so our licensing scheme is transparent but above all, free.
